C H Area, Bistupur, Jamshedpur 831001

EDUCATION

Bachelor of Engineering
Computer Engineering
D Y Patil College of Engineering, Pune [GPA – 8.65(Till 4th semester)]
Savitribai Phule Pune University [07/2019 – Present]

Course Work Includes: Data Structure and Algorithms, Discrete Mathematics, Object Oriented Programming, Computer Networks, Operating System, Artificial Intelligence, Big Data and Data Analytics, Machine Learning

RESEARCH EXPERIENCE

International Institute of Information Technology, Hyderabad Jan,2022 to Present
Applied Research Fellow, CVIT Lab

- Developing a model to detect vehicle mobility and lights using the data on Indian roads.
- Using Indian Driving dataset for training and testing the model.
- Working under the supervision of Prof. C V Jawahar and Prof. Ravi Kiran.
- Tools: Python, TensorFlow, Computer Vision.

Defence Research and Development Organisation April,2022 to May 2022
Research Intern, CAIR Lab, Bangalore

- Developed a model for pedestrian detection and predicting their trajectories for autonomous vehicle.
- Tools: Python, Computer Vision, ROS.

Indian Institute of Technology, Roorkee Jan,2022 to Feb,2022
Research Intern

- Developed a model for the Analysis of EEG signals and its application to neuromarketing.
- Used Band pass filter and ICA for preprocessing the EEG signals.
- Worked under the supervision of Prof. Partha Pratim Roy.
- Tools: Python, SciPy, TensorFlow, Deep Learning.

Indian Institute of Information Technology, Lucknow Nov,2021 to Dec,2021
Research Intern

- Developed a model for heart disease prediction.
- It can detect the heart disease with the information provided like age, sex, and cholesterol.
- Worked under the supervision of Prof. Chandranath Adak.
- Tools: Python, Scikit Learn, TensorFlow.

HONORS AND AWARDS

Mitacs Gloabalink Research Scholarship 2022
Selected as a Mitacs gloabalink research intern for the project "How do organismal scales interact during aging and death?" at Dalhousie University under the guidance of Prof Andrew Rutenberg.

Script Fellowship 2021
Selected as a Script Fellow for the machine learning project called Craftbrain for detecting brain waves.

Finalist – Smart India Hackathon 2021
Participated in Smart India Hackathon with my team for predicting the vertical TEC variation at a given location

PROJECTS

MOVIE RECOMMENDER | Machine Learning | GitHub 2021
- Movie recommendation system based on the contents of a particular movie.
- Used TMDB movie dataset to predict the movie recommendation.

COVID-19 DETECTOR | Deep Learning | GitHub 2021
- It is a COVID-19 detection project to detect the COVID-19 through the X-Ray images of any patient.
- Used CNN and Classification algorithms to detect the COVID-19

MUSIC GENRE CLASSIFICATION | Deep Learning | GitHub 2021
- Deep learning project to automatically classify different musical genres from audio files.
- Used GTZAN genre classification dataset to predict in 10 genres.

ARTICLE PUBLICATIONS

"Workflow of Machine Learning Project," Towards AI, 2021

"Roles in an AI Team," Towards AI, 2021

"Workflow of Data Science Project," Towards AI, 2021

"Aspects that can make artificial Intelligence reliable and trustworthy," Towards AI, 2021

"Workflow of Machine Learning Project," Towards AI, 2021

PROFESSIONAL CERTIFICATES

1. Reinforcement Learning Specialization – University of Alberta
2. AI for Medicine Specialization - DeepLearning.AI [03/2022]
3. Deep Learning Specialization – DeepLearning.AI [12/2021]
4. Machine Learning – Stanford University [09/2021]
5. Mathematics for Machine Learning – Imperial College, London [07/2021]

PRESENTATIONS

Seminar Presentation, "How to become a Machine Learning Engineer?" Google Developer Student Club, Date. 20th Nov 2021

COMMUNITY SERVICE

Google Developer Student Club
Machine Learning Lead, Pune, 08/2021 - Present

Developer Circle from Facebook
Technical Member, Pune, 04/2021 - Present

LANGUAGES

English: Professional Working Proficiency

Hindi: Native Language

TECHNICAL SKILLS

Programming: C, C++, Python, Java

Tools/Frameworks: NumPy, Pandas, Keras, Scikit Learn TensorFlow, PyTorch, OpenCV, Git, GitHub

INTERESTS

1. Bicycling
2. Cricket
